Installation

See the **CAMIO NLE Plugins User Guide** for installation instructions.

Operation

Set your in ('I') and out ('O') points for the graphics insert.
Select 'CAMIO Importer' from the Titling Menu

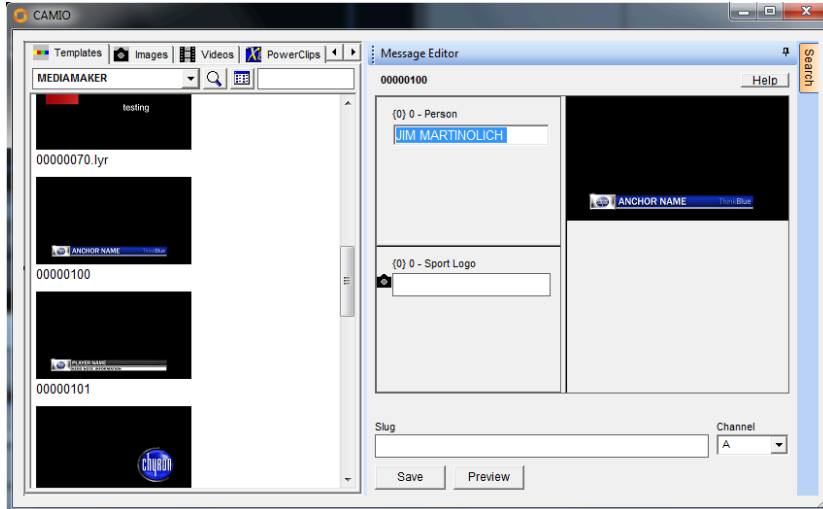

Select and fulfill template, press SAVE button.

Click on LUCI Icon in the taskbar to bring LUCI to the front. (LUCI opens behind Edius).

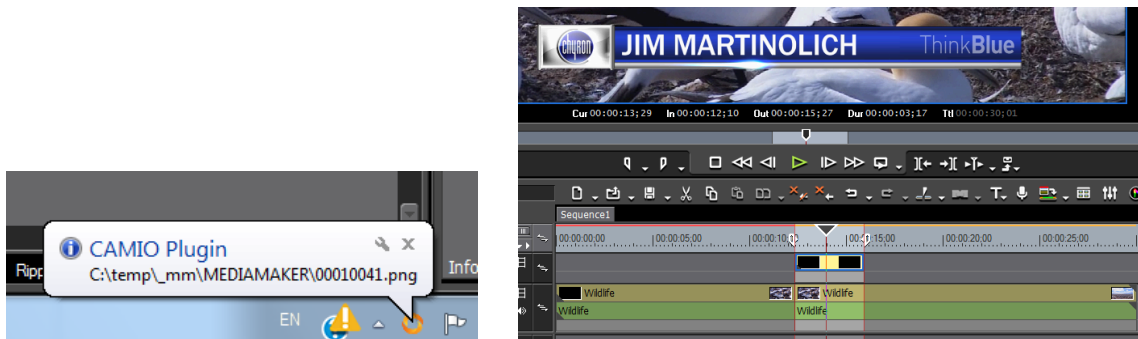

Ignore the Cancel Dialog that is just needed to interact with Edius. Can be used to CANCEL out.

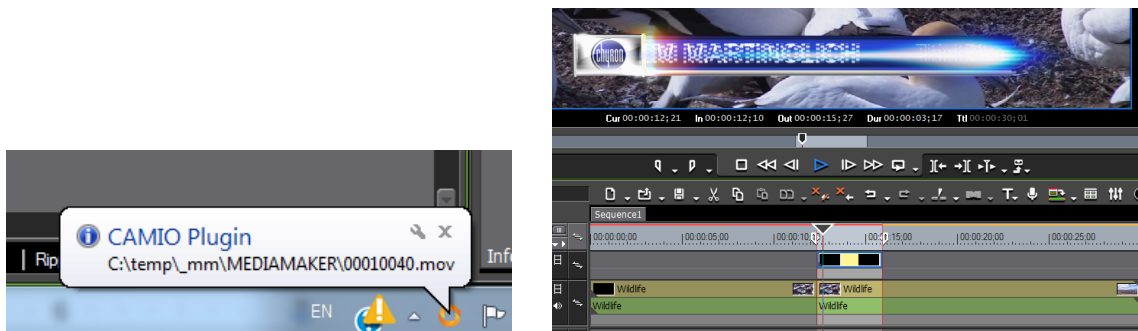

Templates can be from any context as long as the correct channel is assigned and they are Mediamaker compatible.

First a preview png still with alpha will be delivered almost immediately that can be seen on the canvas. Note the pop-up indicator on the system tray when the png is delivered.

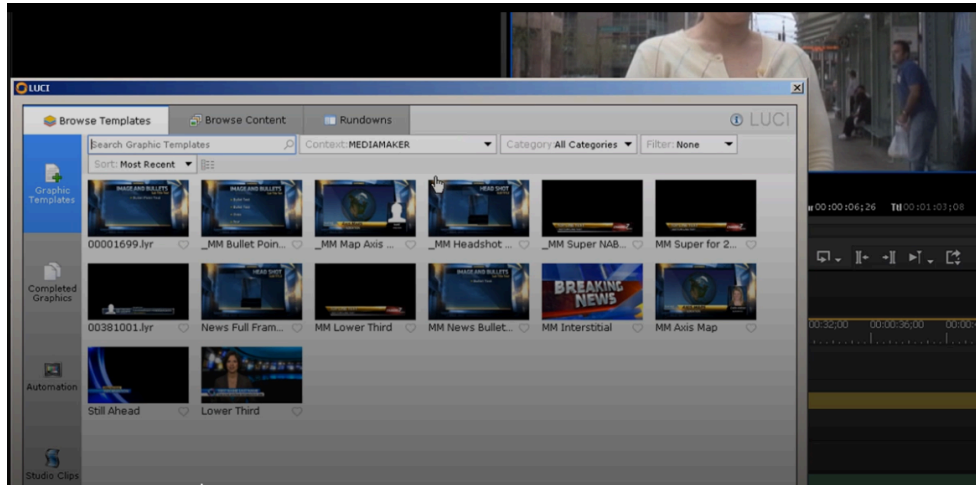

After the rendered movie is finished and delivered, it will replace the png still. A second pop-up will appear on the system tray.

Demo Video

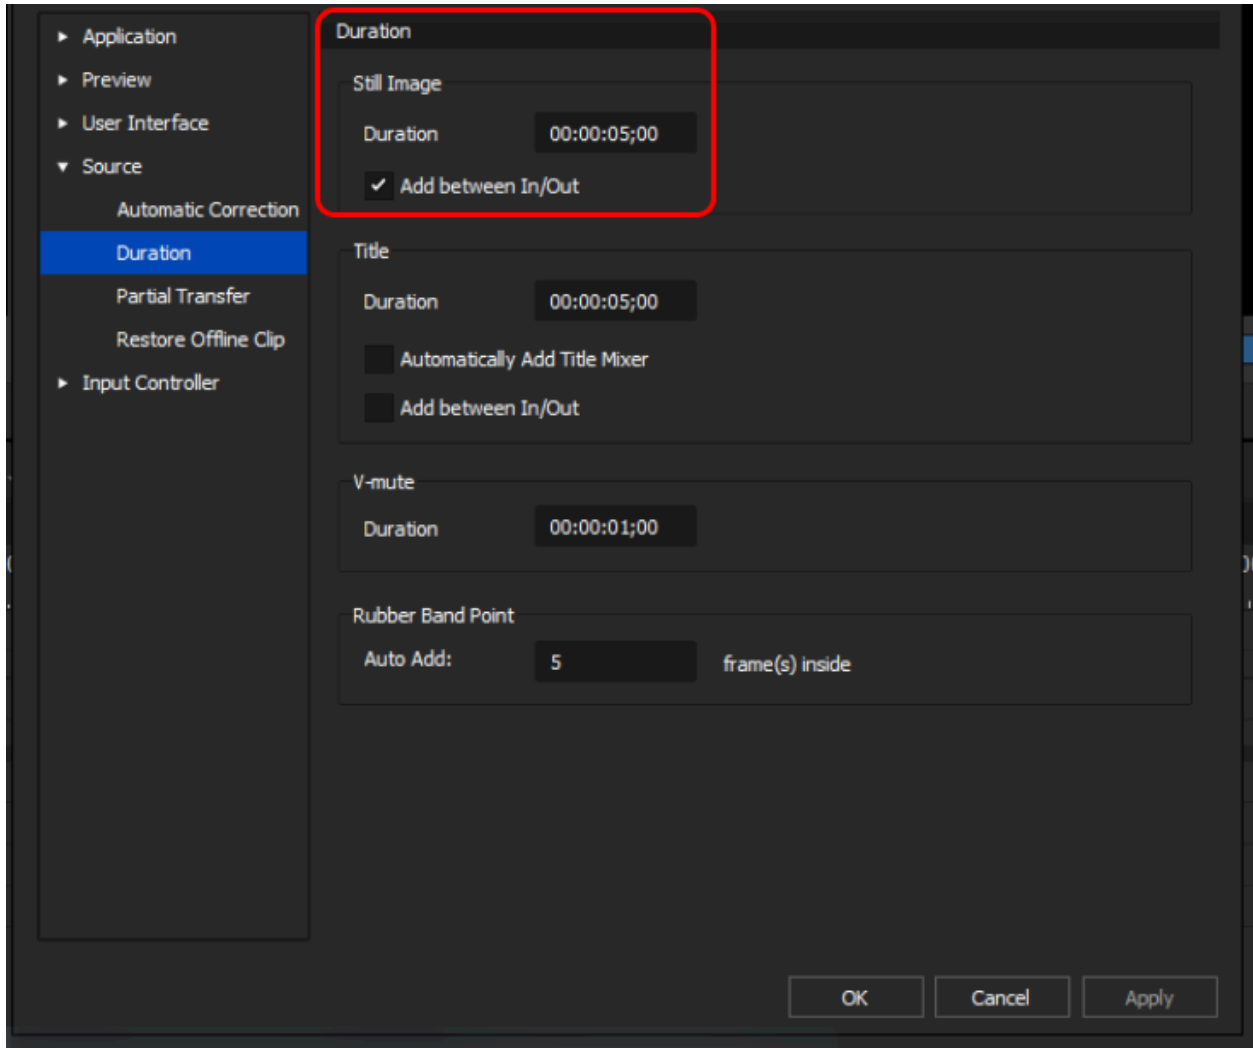

See the **CAMIO Edius plugin example with Edius 8** demo video for a clearer understanding of how this works.

Important Edius 8 Setting

Go to Menu Toolbar > Settings > User Settings and look at the section called Duration highlighted below.

- If you check the "Add between In/Out" box, the plugin will create a movie file that fits in between the In and Out marks,
- If you uncheck the box, the plugin will ignore the In/Out marks and create a movie file that has the Duration specified (5 seconds) and place it where the timeline cursor is.

ABOUT US

Chyron is ushering in the next generation of storytelling in the digital age. Founded in 1966, the company pioneered broadcast titling and graphics systems. With a strong foundation built on over 50 years of innovation and efficiency, the name Chyron is synonymous with broadcast graphics. Chyron continues that legacy as a global leader focused on customer-centric broadcast solutions. Today, the company offers production professionals the industry's most comprehensive software portfolio for designing, sharing, and playing live graphics to air with ease. Chyron products are increasingly deployed to empower OTA & OTT workflows and deliver richer, more immersive experiences for audiences and sports fans in the arena, at home, or on the go.
